May 26-30, Boston,
MA, USA

ICA 61th Annual Conference

The 2011 conference theme is intended to highlight the centrality of communication scholarship by encouraging panels that identify core components of critical challenges and issues and explore the role of communication studies in addressing them. At the same time, focus will be on the centrality of communication – as a phenomenon and a field of study – to any coherent and convincing intellectual world view.

June 23-26,
Edmonton, Canada

The Twelfth Annual Convention of the Media Ecology Association

This convention invites papers, panels, creative projects, and other proposals exploring space, place and city in the context of the McLuhan intellectual legacy. How might media ecology inform today's architecture and city planning? What is the relationship between urban and virtual media realities? What is the meaning of the city in the "global village"? How do new media technologies intertwine, intersect and reform today's urban landscapes?

May 26-28, Tampere,
Finland

Teaching Narrative and Teaching Through Narrative

The conference is organized to explore the broad interface of narrative theory, literary pedagogy, and the uses of narrative as a tool for teaching and distributing knowledge in diverse disciplinary fields. A special feature of the conference will be a series of workshops devoted to close analysis of particular narrative texts – fictional as well as non-fictional – which are studied together by the participants from varying theoretical angles.
