#### *Tryckt*

Utgivare: Lähikuva Association with the Finnish Society for Cinema Studies (SETS), Film Centre of Southwest Finland, Turku Film Club, and The Department of Media Studies at the University of Turku, Finland

Språk: Finska

Länk till hemsidan: <http://www.lahikuva.org>

## **Media ja viestintä (tidigare: Tiedotustutkimus (1977-2008))**

### ***Tryckt***

Utgivare: Mevi, Finnish Association for Media and Communication Studies and Nordicom, Finland

Språk: Finska (Svenska)

Länk till hemsidan: <http://www.mediaviestinta.fi>

## **MedieKultur. Journal of Media and Communication Research**

### ***Open Access***

Utgivare: SMID (Society of Media Researchers in Denmark), Denmark

Språk: Danska, engelska

Länk till hemsidan: <http://ojs.statsbiblioteket.dk/index.php/mediekultur/index>

## **Nordicom-Information**

### ***Tryckt, Open Access med ett års fördröjning***

Utgivare: Nordicom – Nordiskt Informationscenter för Medie- och kommunikationsforskning, Sverige

Språk: Danska, norska, svenska, engelska

Länk till hemsidan: <http://www.nordicom.gu.se>

## **Nordicom Review**

### ***Open Access***

Utgivare: Nordicom – Nordiskt Informationscenter för Medie- och kommunikationsforskning, Sverige

Språk: Engelska

Länk till hemsidan: <http://www.nordicom.gu.se>

## **Nordisk kulturpolitisk tidskrift**

### ***Open Access***

Utgivare: Högskolan i Borås, Sverige

Språk: Danska, norska, svenska, engelska

Länk till hemsidan: <http://www.idunn.no/ts/nkt>

## **Norsk medietidskrift**

### ***Tryckt***

Utgivare: Universitetsforlaget, Norge

Språk: Danska, norska, svenska, engelska

Länk till hemsidan: <http://www.idunn.no/ts/nmt>

## **Wider Screen**

### ***Open Access***

Utgivare: Filmiverkko ry, Finland

Språk: Finska, engelska

Länk till hemsidan: <http://widerscreen.fi>

# Elektroniska källor för internationella tidskrifter

## *Fritt tillgängliga databaser och andra informationskällor*

### **DOAJ: Directory of Open Access Journals ([www.doaj.org](http://www.doaj.org))**

The service covers free, full-text, quality controlled scientific journals. The aim is to cover all subjects and languages. They have listed about 10 000 journals so far (2013). The field of media and communication is included in social sciences and covers about 180 journals. The service is maintained by Lund University Library in Sweden.

### **IAMCR: Open Access Journals (<http://www.iamcr.org/open-access-journals-newsmenu-322>)**

The website with links to free, online journals in the field of media and communication, most of them are open access and peer-reviewed. The directory comprises mostly English and Spanish language journals. It covers about 85 journals.

### **NCOM: Nordicom's database on Nordic media and communication research (<http://nordicom.statsbiblioteket.dk/ncom/en/>)**

The database offers search in a collection of research, knowledge and useful resources in the field of Nordic media and communication research. The four data types represented in Ncom: Nordic media researchers, research institutions, research projects and research publications are continually updated by Nordicom. The database covers research publications from 2006 and onwards.

### **NSD: Scientific journals, series and publishers (<http://dbh.nsd.uib.no/kanaler/>)**

Norwegian ranking of peer-reviewed, scientific journals from all disciplines. The field of media and communication includes about 309 journals. Journals are divided into two categories: 1 and 2, good and excellent scientific journals.

## *Tidskriftsdatabaser tillgängliga via bibliotek*

### **CIOS ComAbstracts**

The Database contains abstracts of articles and books published in the field of communication(s), as well as bibliographic records. It covers about 135 English language scientific journals including the possibility to browse the tables of contents. The database is maintained by The Communication Institute for Online Scholarship (CIOS) which is American not-for-profit organization supporting the use of computer technologies in the service of communication scholarship and education.

### **Ebsco: Communication & Mass Media Complete**

The database includes indexing and abstracts for more than 600 media and communication titles. Furthermore, the database includes full text for over 300 journals. In addition to English titles, the database contains, for example some Spanish journals. The database is maintained by Ebsco Publishing.

### **Sage Journals Online**

The database contains about 600 full-text Sage journals from multiple scientific fields. They have about 50 peer-reviewed journals in the field of media and communication.

### **ScienceDirect**

The database offers access to more than 2000 peer-reviewed Elsevier journals from multiple scientific fields. Amount of journals in the field of media and communication is not defined.

### **Scopus**

This is a large abstract and citation database covering more than 19 000 peer-reviewed titles from over 5 000 international publishers, including coverage of 1 800 Open Access (OA) journals, 4,6 million conference proceedings, 400 trade publications, and 300 book series. The database is maintained by Elsevier Publishing. Amount of journals in the field of media and communication is not defined.

Scopus has launched its own journal indicators, so called SJR and SNIP indicators that provides information on the citation figures of journals. They also launched first the so called Hirsch index (h index) that correlates with researchers' publications and their impact/citations.

### **Ulrich's Periodicals (Ulrichsweb)**

This is a global serials directory database covering over 300 000 periodicals from all over the world from 200 languages. It contains bibliographic and publisher data. The database is maintained by Cambridge Scientific Abstracts. Amount of journals in the field of media and communication is not defined.

### **Web of Science (WoS)**

The first global citation database, started in 1986 and divided into three databases: Science Citation Expanded, Social Sciences Citation Index, and Arts & Humanities Citation Index. It also contains the service called Journals Citation Reports (JCR) that presents scientific journals and their citation figures, so called impact factors, that provides a systematic way to determine the relative importance of journals within their subject categories. JCR covers 72 journals in the field of media and communication in 2012. The database is maintained by Thomson Scientific.
