

Dear ECREA 2021 participant! Let us introduce some recent publications from Nordicom – presenting high-quality research on a wide variety of topics. All with digital Open Access.

Nordic Journal of MEDIA STUDIES

VOLUME 3 | 2021

Recent times have seen a peak in media attention to climate change. The latest issue of *Nordic Journal of Media Studies* addresses the intersection between media and the climate crisis.

EDITORS: RISTO KUNELIUS & ANNA ROOSVALL

THE MEDIA FOR DEMOCRACY MONITOR 2021

HOW LEADING NEWS MEDIA SURVIVE
DIGITAL TRANSFORMATION

To what extent do structures and conduct of leading news media correspond with requirements of contemporary democracies?

Based on a root concept of democracy and several empirical indicators, the *Media for Democracy Monitor 2021* delivers a panorama of the news media's performance regarding freedom, equality, and control across 18 countries.

EDITORS: JOSEF TRAPPEL & TALES TOMAZ

Coming soon: Wizards of the Web

While algorithms and automated systems themselves are often a topic of controversy and debate, this book is about the people behind them; it is an account of the cultures, values, and imaginations that guide programmers in their work designing and engineering software and digital technology. *Wizards of the Web* will be published on 8 September.

AUTHOR: JAKOB SVENSSON

The book will be available to read and download free of charge from Nordicom's website: www.nordicom.gu.se

PUBLISH WITH NORDICOM

Nordicom is an independent, non-profit academic publisher in the field of media and communication. Our line of publications includes monographs, edited anthologies, and two peer-reviewed scientific journals, *Nordicom Review* and *Nordic Journal of Media Studies*. All our books and journals are published with digital Open Access, without publication fees or article processing charges, and under a Creative Commons (CC) licence.

In 2020, *Nordicom Review* recorded a CiteScore of 1.8 and was included in the top quartile for Communication journals in the SCImago Journal Rank (SJR), which measures a journal's scientific prestige.
